WILL BE BURNED

A Thousand Irate Men After a Negro in Florida.

III'S CRIME ATROCIOUS

Fine Weather at the Confederate Reunion—President McKinley Cheered in Ohio—Another Bank Robbery.

NON-UNION WOMEN ATTACKED IN N. J.

WILL BE BURNED ALIVE.

Hartow, Fla., May 29.—A thousand men with bloodhounds are chasing a negro who raped, murdered and mutilated the body of Mrs. Rose Taggart last night. The infuriated men openly declare they will burn the negro at the stake when he is caught.

FINE REUNION WEATHER.

Memphis, May 29.—Fine weather marks the second day of the Confederate reunion. All events, including the flower parade, will be given today, as per schedule. The morning was consumed by the veterans in reading and receiving reports. Dallas is making a hard fight for the next reunion. The vote will be taken at this afternoon.

Hundreds of people are leaving Memphis on every train, and cars in attics have been rented for a dollar apiece. Scores of ladies have had to sit up in the hotels because every thing is crowded. On the Illinois Central train which arrived at 12:30 this morning three extra coaches had to be put on at Memphis, and then scores of passengers had to stand up all the way home.

FATAL EXPLOSION.

Bonnie, Mo., May 29.—An explosion on the freight boat Laurnie here today wrecked the boat and killed two of the crew, wrecked a ferry boat and demolished two residences nearby.

ANOTHER BANK ROBBERY.

Bardner, O., May 29.—The Mechanics' bank was wrecked last night by an explosion and the vault robbed of four thousand dollars, the robbers escaping.

PRESIDENT CHEERED.

Canton, O., May 29.—President McKinley was cheered at all stations in Ohio today by large crowds. He made a brief stop here before going to Washington. Mrs. McKinley is better.

MCCRACKEN CASES DECIDED.

Frankfort, May 29.—The court of appeals today decided the following from McCracken: Paducah Street Railway Co. against Boss Ladinger, affirmed. He was given a judgment for \$100 for injuries received by being thrown from a wagon near the old cotton depot by it striking a car track, and having a knee cap broken.

The case of Hale against Swift was reversed. It was a judgment for a piece of land in the county.

HUTTED TO DEATH.

Hodgenville, May 29.—At Hammonville, T. Abeling, a wealthy farmer and distiller, was beaten to death by a vicious ram.

WOMEN TAKE A HAND.

Paducah, N. J., May 29.—Three thousand girl strikers created a riot here and handled several nonunion women roughly at Ward's haukier chief factory. The police had to be called to disperse the rioters.

Great and cheap job work—full of fun.

MEET TONIGHT.

MAJOR LANG WILL ATTEND THE CONFERENCE AT PRESIDENT ROBERTSON'S.

Major Lang, who is an ex-officio member of the board of health, as well as of all council committees, stated this morning that he will attend the meeting of the board, and the council and Commercial club committees in President Robertson's office over Robertson's drug store this evening.

Nothing can be predicted as to the outcome, except that the committee will probably agree to recommend to the council the appointment of the meat and milk inspector. One of the councilmen said this morning that he was in favor of the inspectors, and that so far as he knew the other members were also, but that the board of health had simply been a little hasty and adopted the wrong means of punishing the council up.

A GOOD TIME.

MARSHAL COLLINS ON A HOT TRAIL TODAY.

Witnesses Examined in Regard to a Midnight Carousel Near Town.

Marshal Collins looked like a man with something important on his mind this morning when a reporter called on him.

"Yes," he said, "we are busy. Here we have the names of four or five young men who seem to believe in enjoying life to its fullest extent."

He then told how the young men went out night before last with several females to a creek above the city. On the way eighteen or more fat fowls disappeared from Mrs. Allen's, on Main street, and a woman with the crowd who was summoned as a witness this morning said the young men had chickens to fry, if not to burn, when they reached the creek.

The chicken fry was supplemented with an attack on two gallons of whisky, and the crowd is reported to have remained out all night.

The only thing that caused any particular trouble is the failure of the chickens that accompanied the crowd to return home. Eighteen chickens cannot be raised in a day. It is alleged, and the lady who raised them objects to being deprived of their possessions without even a vote of thanks. Marshal Collins declined to give names until warrants are issued.

ROUBLE IN COURT.

London, Ky., May 29.—Serious trouble was narrowly averted in the circuit court room here at noon today when court adjourned. Julie Webb has been on trial for the murder of Charles Hall, of Clay county. The Hall brothers attacked Lawyer Kash for a statement he made to the jury, and pistols were drawn by friends of both sides, but the men were parted. This afternoon the judge ordered the court room searched for shooting iron.

MANSON NOTIOE.

Plain City Lodge No. 449 will meet at 7:30 o'clock tonight in stated communication. Also for work in E. A. degree. Visiting brethren cordially invited.

IRINTON B. DAVIS, W. M. GEORGE C. INGRAM, Sec.

James Greer, of Marshall county, who was recently tried at Benton on a charge of murder and given a life sentence, is to get a new trial.

The court of appeals at Frankfort today reversed the sentence of the circuit court and remanded the case for a rehearing.

Greer, with his two brothers, it will be remembered, forced John Thomas, colored, into a wagon as they were returning from Paducah, and made him drink large quantities of whisky, finally shooting at him and beating him into insensibility, and leaving him hanging over a fence, dead.

MEET TONIGHT

General Manager Wallace Has Returned From

Texas.

EARLY AGREEMENT LIKELY

This Evening a Meeting Will Be Held With

the Committee to Settle Street

Car Trouble.

NO FORMAL SIPS TAKEN YET.

General Manager George C. Wallace, of the Paducah Street Railway company, arrived this morning from Texas, and one of the committee from the Central Labor union called on him at his office on Fourth street and asked a conference with the arbitration committee from the Federation, which is composed of Messrs. Wm. Farrow, of the Painters' union; D. W. Farrow, of the Plumbers' union; M. A. Bonysan, of the Machinists' union; F. G. Davis, of the Plumbers' union, and Sam Simon, of the Leather Workers.

Mr. Wallace designated 7 o'clock this evening as the time for holding the conference. He was seen by a reporter a short time after he had seen the gentleman from the labor union and said:

"The matter has not yet been put formally before me, but tonight at 7 o'clock we will hold a meeting and doubtless settle it. While, as I say, it has not been formally presented to me, I do not think that there will be any difficulty in reaching an amicable agreement."

This is thought to mean that all the mormen will be reinstated.

It seems that nothing but unconditional reinstatement to their old positions will be accepted by the mormon.

One said this morning:

"We were offered reinstatement last night, but would have had to work as they wanted to work us, which would practically mean that we might not work at all. We want our old positions back, and have agreed to the retention of Metormen Collins and Stanley, who did not join the union, but who are old men. I think we will settle it in a friendly war."

It seems to be the general opinion that the trouble will all be over by morning.

DISPATCHER ALVEY TO TAKE A TRIP TO CALIFORNIA.

Local Improvements and Matters of General Interest to the Public.

DISPATCHER J. H. ALVEY, of the Illinois Central, leaves Monday for San Francisco, Cal., to attend the fourteenth annual convention of railway train dispatchers which meets in that place and lasts several days. Mr. Alvey, accompanied by Dispatcher Wardro, of Louisville, will join a party at Chicago and make the trip via New Orleans, coming back by a Northern route. It will be a most delightful trip, and Mr. Alvey expects to be absent about three weeks. It has not been decided who will fill his place during his absence.

Superior W. C. Wagner, of Central City, was in the city today.

Major George C. Powell, of Chicago, industrial commissioner of the Illinois Central, was in the city today.

Roadmaster L. A. Downs returned to Louisville this morning.

A long distance telephone has been put in the local I. C. depot. It has long been needed and the traveling public will be benefited by it.

The monogram at the master mechanician's office has been about completed. All that remains to be done is to put the initials of the company and the bed will be finished. There will probably be another monogram made in the local shop yards. The master car builder will probably have one made near his office. They add greatly to the beauty of the yard.

Lockup Keeper Monroe is on the sick list and Mr. French Shoemaker is acting lockup keeper.

WEDNESDAY, MAY 29, 1901.

A DAILY THOUGHT.

"In this life there is no time to repine, only time to do one's work and never to let others which have failed. The latter may be the greater nobility."

If scare heads made big items, Paducah would be one of the best towns in the country for news.

Turkey has taken back water. The order prohibiting the importation of typewriters has been rescinded because of the protests of foreign embassies.

The most favorable thing that has happened to Senator McLanahan, of South Carolina, is that Mr. W. J. Bryan has endorsed Tillman.

Tonight the board of health and council committee will lock horns on the meat inspector question. It is hoped no coroner's inquest will be committed.

It is claimed that Germany's withdrawal from China was the result of diplomacy on part of Russia and that this practically settles the Chinese muddle.

Longsville seems certain of getting the next Confederate reunion. The festivities last year were marred by incessant rain, and as Kentucky did not have a fair chance to show her hospitality it is only just that she should be given another opportunity.

The Elk fair at Longserson is now in full blast, with indications of a successful week. The "girl with a torn hair" will probably not want to leave Kentucky next week when her contract calls her elsewhere. She has had a very pleasant time, and we all hate to have her emigrate.

The Chinnaman seems to prosper in the United States. Those who are not counting money washing shirts are winning medals in college. The other day Charles Yum Marshall won the Founder's medal for oratory in Vanderbilt university over three Americans.

Some idea of the number of persons after government positions may be had from the report of the chief examiner of the civil service commission, which shows that during the year ending June 30, 1900, 45,641 persons took the civil service examinations for original appointments to the classified service. There were 469 different kinds of examinations.

The city should construct a band stand somewhere in a convenient location and accept the offer of Dean's band to give free concerts. The band is better than ever before, and the cost of a stand would be small. The only thing that deprives the citizens of enjoying good music is the lack of enterprise on part of the council in failing to provide a band stand.

It is said on good authority that the iron furnace on South Third street will be in operation within sixty days. It has not yet been determined who will operate it, but if the St. Louis syndicate which recently purchased the Hillman furnace above here, and are now trying to get the Grand Rivers property in shape to close a deal, do not operate it, other capitalists will. This was predicted in the Sun two or three months ago, and is certain to come to pass. It will be a great thing for Paducah, and will give an appreciable impetus to her industrial enterprise.

It is claimed by some legal authorities that the decision that the statute prescribing a special penalty for violation of the Sabbath by keeping saloons open is unconstitutional, leaves Kentucky without any law for Sabbath violation. The general statute excepts several exceptions, which it is claimed renders it unconstitutional for the same reasons that the Louisville judges decided the special statute is unconstitutional—that is, it discriminates by prescribing a penalty that does not apply to all alike.

It is a pity to get in the habit of thinking of health as a thing to be hoped for; why not go for it now!

There is only one way to make strength: by food. You want appetite first, then food. The emulsion will give you food-rest, to master your food with.

It seems that like the mantle of charity this "class legislation" has now covers a multitude of sins. Ours, in their efforts to prevent discrimination between classes, seem to overlook the important fact that for the general welfare of a community, its health, morals or protection to property, police regulations have been authorized which in many instances wipe out class legislation, and make most any restriction possible which tends to promote the general welfare, the health or the morals of a

Some steamboat captains and owners of cats are peculiarly sensitive in regard to the notice of their boats in the river columns of the daily papers. If they are not constantly noticed with good "write-ups" of their business they make a general kick, strike out for the office ordering their ads withdrawn at once, if not sooner. We endeavor to please all, but it is an impossibility to please some persons all the time, no matter how hard we may try.

The Joe Fowler from Evansville arrived and departed on return trip this morning with nice trips down and return.

The Dick Fowler and Wabash both take excursion trips tomorrow to Mount City. The regular annual decoration day at the national cemetery near Mount City being the occasion.

The City of Golconda is due this afternoon from Golconda and leaves on return trip tomorrow noon.

Mr. Thomas Murray superintendent of the marine ways, sprained his ankle badly yesterday afternoon at the ways but will be able to get around on crutches in a day or two.

The City of Pittsburgh leaves Chillicothe for Memphis today.

It is now stated that the race between the Morning Star and Jewell last Sunday in which it was reported the Jewell won easily, has another color to it now as the Morning Star was running on one wheel on account of some accident to her machinery.

The Boisse Smith got sixteen car loads of freight yesterday from the L. C. at Brookport and received about thirty tons from the wharves here and departed for Chattanooga at noon.

The Dick Fowler with splendid business departed for Cairo on schedule time this morning.

SO QURUM PRESENT

The meeting of the advisory board of the Home of the Friendless and the meeting of the board of directors of the Y. M. O. A. were not held last night owing to the failure of quorums to be present.

The H. W. Buttress arrived from Clarksville at 5 o'clock this morning and went over to the island and got 2,000 sacks of corn from the Wabash barge. McAllister, received a large lot of freight at the wharf and left here early this afternoon loaded flat for Nashville.

Captain Sam' Brown has found the \$9,000 pool ticket placed on Garry Harman, which had been lost in a Pullman palace car.

Captain Clyde Howard has over one hundred men at work on the marina ways at Madison, Ind. There is much work there to do yet, and he is doing it rapidly and well.

The contract for the building of the light house tower for the Sixteenth district, which has its headquarters at Memphis, had not been let out up to May 23. It is to be known the Olander, and congress appropriated \$60,000 for its construction. The bids for the work were opened in Washington on April 24. River men are of the opinion that it will be next to impossible to build and supply the boat with the numerous different plants for which the specifications call for. Among them is an ice-making plant.

A Cincinnati special of the 23th says: A bolt of lightning struck the signal flag staff of the harbor boat Relief, and the electric light wire attached to the signal globe at the top were melted. Engineer Charles Cos, who had his hand on the metal switch at the moment of contact, was severely shocked, and Capt. Brad Williams, who was holding the metal rounds of the pilot wheel, was momentarily paralyzed.

The City of Memphis leaves St. Louis today for Tennessee river.

At last the weather has cleared and this morning was beautiful and bright but still cool for the season but greatly moderated. Business was very good on the wharf all day.

The Brotherhood of Locomotive Firemen and Brotherhood of Railroad Trainmen made an excursion trip to Owen's Cave today on the Wabash and her barge, McAllister. The White Union brass band accompanied the excursionists.

River 22 feet 2 on the gauge here this morning, a rise of two feet nine-tenths in 24 hours.

The T. H. Davis is lying at Casey.
